Improved Uniform International Sunday School Lesson

(BY REV. F. B. FITZWATER, D.D., Dean
New Bible Institute of Chicago,
(c. 1928, Western Newspaper Union.)

Lesson for September 30
PAUL THE MISSIONARY

GOLDEN TEXT—Christ liveth in me.
Galatians 2:20.
PRIMARY TOPIC—Stories of Paul.
JUNIOR TOPIC—Paul, the Brave
Missionary.
INTERMEDIATE AND SENIOR TOPIC—Paul the Braver.
YOUNG PEOPLE AND ADULT TOPIC—"In Labors More Abundant."

In the review of this quarter's lessons, a good opportunity is given for character study. The interests of the quarter's lessons center in Paul, Stephen, Barnabas, John Mark, Luke, Timothy, James and Ananias. Assignments should be made a week in advance for the preparation of brief essays for the pupils.

Another method would be to lift out the principles contained in the lessons of the quarter and apply them to the important problems of the day. The following suggestions are offered:

Paul's Ideal Education; Evidence of Genuine Conversion; What is a True Christian? What is the Real Missionary Spirit? Who Should Be Missionaries? Should Religious Differences Be Compromised? If so, How? How to Be Assured of Divine Leading.

Perhaps the most satisfactory method for adults is to summarize the facts and state the leading lessons. The following suggestions are offered:

Lesson for July 1. Paul, by birth and education, had much to be proud of. A godly ancestry and a true education ought to be the heritage of every child.

Lesson for July 8. While Stephen ministered in the synagogues of the church he testified of Christ and met with violent opposition. The ring-leader in this opposition was Paul. A man may be conscientious and wrong.

Lesson for July 15. Paul in unbelief zealously persecuted the church, even consenting to the death of Stephen. When his eyes were opened by the appearance of Jesus Christ on the road to Damascus he was transformed into a zealous witness for Christ.

Lesson for July 22. The sight which Paul had of Christ was so real that he at once seized his deity and saving power.

Lesson for July 29. Paul and Barnabas were sent forth by the Holy Ghost to preach the gospel to the Gentiles. They were opposed by Elymas, the sorcerer. Spirit-filled men will most surely meet with opposition.

Lesson for August 5. The preaching of Barnabas and Saul was accompanied with such wonderful signs that the people attempted to worship them as gods. The same people soon were moved to stone them. Despite this horrible treatment, Barnabas and Saul carried on their work.

Lesson for August 12. The question of the grounds upon which Gentiles were to be received was bitterly debated. Paul preached that it was to be by faith alone. Certain Judaizing teachers taught that faith was to be supplemented by the works of the law.

Lesson for August 19. Paul was forbidden to preach in Asia; then called to preach in Europe. Divine guidance is just as really shown in closed doors as in open doors.

Lesson for August 26. When Paul's missionary work interfered with the unlawful gain of certain men at Philippi, he and Silas were sent to jail. Through their miraculous deliverance and their testimony of the saving power of Christ, the jailer was converted.

Lesson for September 2. Wicked Jews followed Paul to Thessalonica and Berea. They stirred up the people to such an extent that he had to flee. Wherever he went his ministry was accompanied by supernatural signs so as to convince the Gentiles.

Lesson for September 9. Paul preached the gospel in Corinth with such power that many were saved. The gospel is the power of God unto salvation.

Lesson for September 16. The church was threatened with disruption through party spirit. The right conception of the gospel, Christian ministers and persons constituting the church, will cure sectarianism.

Lesson for September 23. The Christian should abstain from that which might cause his brother to stumble.

Love One Another
Let us love one another whilst we live! I would speak for a kind word on behalf of those who are sitting next you and making your own house glad by their deft fingers and their loving hearts.—Joseph Parker.

Serving God
Serving God just where you are, with what you have, and nothing else. God requires nothing more; He will take nothing more. It is yourself, in your own position, wherever you are, that He wants.—Margaret Slattery.

Thy Will Be Done
To do or not to do; to have, or not to have, I leave to thee; thy only will be done in me; all my requests are lost in one, "Father, thy will be done!"—Charles Westley.

EAST FRYEBURG
Wm. H. Berry, Katherine Harnden and Shirley Manchester entered Fryeburg Academy at the beginning of the Fall term. Amelia Sanborn, entertained Sally Erickson, Arthur Pillsbury and Addison Pratt, of Boston, over the week end.

Life Work of Rev. Silas H. McKean, a Native of Fryeburg

Thinking that this might be of interest to many of the readers of your valuable paper, "The Norway Advertiser", also, inasmuch as Rev. Silas H. McKean is a native of Fryeburg—I write you in part some of his work in the ministry during the past thirty-two years—as follows, in Maine, Massachusetts, New Jersey, Connecticut and New York.

He began the ministry in Harpswell, Maine, in 1893, was ordained at South Berwick, October 15th, 1895, and held several other pastorates in Maine, including Bangor.

Beginning of 1901, he accepted a call to West Dighton, Mass., thence to New Jersey, then in 1905 to Danbury, Conn., from which he was called to East Houdonville, N. Y., and after three years of service there, went to the Congregational Church at Woodville, N. Y., in 1909. Jan. 1st, 1913, he went to Bangor, N. Y. from Woodville, to take charge of four churches for two years, where he made about 1,500 calls, traveled nearly 2,500 miles, and preached two sermons every Sunday, attended two mid-week services and never owned an automobile.

Jan. 1st, 1915, he began the two pastorates of the Congregational Churches at Denmark and Deer River, N. Y., where he remained until October 15th, 1917, when he moved to Charleston Four Corners, N. Y., taking charge of the Christian Church, and in addition to church work, served on a Committee of Public Information, under the direction of the War Department, from 1917-19, after receiving his discharge, he returned to his home in Denmark, N. Y., to be soon called to the Denmark and Deer River parish for the second time, and remained with the Denmark church until January 1st, 1924, but continued with the Deer River church until May 20th, 1926.

His ministry with the Deer River and Denmark Congregational Churches, covered a period of nearly ten years, which was, as the records show, a good deal longer than any other pastor since its organization one hundred years ago.

He purchased a farm in 1922, which he operated in connection with his church work, but for the past two years has been wholly engaged in intensive farming.

He left the Deer River farm about September 20th to take up the ministry again at Norway, Me. He was one of the oldest Christian churches in the York and Cumberland Conference.

OXFORD—FORE STREET

Mrs. Cummings' Visit to Vermont
State Quarries

After attending church services twice Sunday morning, the restless feeling was given into and a hike taken to the state quarries. A winding road, not a trail, the road is used to haul the slate to the railroad and station by "two horse loads" led to top of the waste pile where a surprise was given in finding golden rod in profusion and catnip while the fragrance of mint pleasantly met you and how these grew from a slate waste lot those who know, tell. We stepped to the edge of the road on one side and looked down, down, down, into the pit, a stone was tossed into it and 'twas several seconds before 'twas heard hitting the bottom. All over head were tany wires strung from tall strong poles and fastened distances apart to "Dead men" which looked like iron eyes securely driven into heavy borders of slate rock.

From a distance this winding looked like aerial wires nearer to you could quickly see the business working, as cars, trolly fashion were hung here and there as the work needed. An offer was made to give a free ride in one of the baskets but was not accepted. Not that you did not want to be a sport but 'twas Sunday and a body was not dressed for such feats, of course. Neither was there any desire to clamber down the walls to where the rock fell, 'twas said that tany wires from pit to pit, where we were told, ice and snow remained long into the Summer months. Knowing of the Ice Caves of Greenwood Maine and Moose Cave of Sever, Auger, it was easily believed but no desire to prove. Content to muse to the other side of the pile of waste slate where the land-scape greeted the eye pleasantly, after the gruesome pits. As we neared this edge the little village nestled at the foot of the waste pile, but the rolling fields in New York, grazing section and the city of Granville six miles away, then the twisting Indian River that overflows in flood years and sweeps down bridges and all else in its wake and then, all of a sudden a halt! We stood down the sharp descent onto the roofs of the village, for there it is just below nesting in the tree tops as it were. Our own back door looking so near by we could all just touch it if one had a long enough pole.

We stood there enjoying it all, noting the spires of the several churches, the R.R. station and even the freak in the finishing touches of the way the school house, which is a large square building, with a structure set on a high knoll, was painted. The climb to the top had warmed us a plenty but the cool breezes coming from all directions, seemingly, upraged the idea that we had stopped on the heights plenty long and we walked our way down another route the not as pleasant as the one that hugged the quarry, this being lined both sides by shrubs and berry bushes and then a scrub apple tree. The berries were good but the apples—

No days and days and days of rain experienced here yet. Just a cloud burst now and then when a wet cloud drifts this way and gets slit open by some projection of slate skyward. Course 'tis known that floods and disaster frequent this country. That Indian and Mettewee rivers get unruly, and already two inches of snow on Mt. Rupert—"Just over the way" and hail stones big as hen's eggs!" the other day. They must have fallen gently for neither the ambulance nor the hearse were called out. The ordinary set of bug hunting men, the crew working on reconstruction of bridges, the every day laboring industry with his dinner pail and hilarious children in the street after school is let out and the housewives sitting in and out to market, visit or "get the mail". The last of most interest to non-residents I admit. These every day sights only greet the eyes. Of course this does not include the ever passing autos, trucks and quarry teams for Pawlet is alive in every sense of the word. Believe me.

I wish I could map out understandingly how the 5 roads beside the R. R. leading

out of Business Square are just on the line of N. Y. another Graveston, N. Y. just over the line on one road you enter Hebron, N. Y. another Graveston N. Y. another Wells, Vt. and the others in still other towns. If I understand correctly there are three Counties that come to point here too, and one house that is in both Vermont and New York and two or three towns.

Such mixups may be interesting. I'll leave it for those who may be interested to puzzle it out. I give it up and quit for this time.

THE NEW BUICK IS THE new style

An entirely new scheme of body lines and contours... the most costly paneling employed on any automobile in the world... and the richest upholsteries and appointments distinguish Buick's new Masterpiece BODIES by FISHER

The Silver Anniversary Buick is kindling more interest—drawing more people to the display rooms—winning more praise—and creating a demand so sweeping and so insistent that Buick's vast factories have reached new levels of production in attempting to keep pace.

—all because it is not only the most brilliant performing automobile of the day, but also because it marks a new style—a thrilling new mode of car design—more beautiful, more luxurious and more graceful than any the world has known!

An entirely new scheme of body lines and contours—softly rounded steel panels, the most costly employed on any motor car—a continuous moulding with double bead running around the body and dividing the lower from the upper structure—all impart an atmosphere of unrivaled beauty.

If you want beauty—if you want individuality—if you want up-to-the-minute smartness—there's only one choice... the choice of America... the Silver Anniversary Buick with new Masterpiece Bodies by Fisher. It's the new style—the new mode—in motor cars!

Annual Community Fair

Pulling, Baseball, Hall Exhibits at the
Weldville Fair

Oxford Grange staged the annual community fair at their hall at Weldville, Saturday, and attracted a good sized crowd. Weather in the early hours was anything but attractive, but the sun burned through and a delightful day was the result.

The midway around the grounds made up of games and fairs, attracted considerable business. A baseball game in the vicinity between teams representing Oxford and West Minot, was the principal diversion during the forenoon.

Dinner served in the hall by the thesist of the grange was an attraction that filled the tables and netted the society a good sum of money.

The horse pulling on a side road was good, but failed to arouse general interest because all but one pair were owned by A. B. Grover, who was in charge of that contest. Mr. Grover's fourteen year old son, Woodrow, injected excitement into the match when he defeated his father, a driver of many years experience.

The pair used were Mr. Grover's bay, the lighter in the field, weighed 2390 and hauled 3726 pounds of rocks 317 feet and 2 inches. This mark trimmed his sire by two feet.

The first pair of the Grover horses to start was driven by George Smith, who made 315 feet 8 inches. The second pair, driven by Mr. Grover himself, registered 265 feet 1 inch. The third pair, also driven by Mr. Grover, went 315 feet and 6 inches. John Pike started his pair of blacks and landed 220 feet 2 inches from the starting point. Harry Smith, driver of another pair from the Grover stable, made 31 feet 10 inches. The purse was 10 bushels of oats divided into 20, 15, 10 and 5 bushel lots.

There was a good display in the hall which included fancy work, rugs, quilts and vegetables. Booths were tastefully arranged and displayed many things for sale. These were carried on by the ladies of the Grange Ladies' Circle and Methodist Ladies' Aid.

Roy P. Hall had a nice display of antiques and curios of all kinds. Charles Brett also had some old fashioned things. Mrs. Arthur Record of Norway had a display of gladioli that was attractive and unusual.

Premiums were awarded as follows: Aprons, Mrs. Edith Kemp 1; Mrs. Lincoln Chapman 2; Towels, Ida Stone 1; Mrs. Louise Wood 2; Mrs. Alice Walker 1; Wood 1; Mrs. Adie Greenleaf 2; special award drawn rug, Mrs. Ada Gagne; braided rug, Mrs. Evelyn Farrington 1; Mrs. John Hall 2; Cross stitch work, Mrs. Alice Wilson 1.

Spreads: Mrs. George Tyler 1; Quilt, Mrs. M. J. Hall 1; Mrs. Hazel Marshall 2. Best collection fancy work, Irene M. King 1; Doris Whitman 2; pillow slip, Stella Addison 1; Ida Stone 1; Mrs. John Hall 1; Mrs. Alice Wilson 2; pillow slips, Mrs. Everett Staples 1; Ida Stone 2; crocheted centerpiece, Mrs. Mildred Grover 1; Mrs. Nellie Wardwell 2; crocheted centerpiece, Mrs. Alice Wilson 1; Louise Wood 2.

C. H. Brett, general display 1; C. L. Brooks 2; J. W. Hunting 3; Preserves, Mrs. Hunting 1; pears, J. P. Hall 1; Jelly, Mrs. Gagne 1.

Squash, Orrin Martin 1; the judges were George Tyler and J. P. Hall.

Prizes for calves went to C. K. Denning on calves and for a brood sow and nice letter of pigs.

The committee of arrangements: Geo. Tyler, chairman; Adna Herrick, secretary; Elmer, Mrs. E. B. Bowker, she being assisted by Mrs. Charles Brett; Mrs. Adna Herrick; others were Mrs. Julia Barrett, Mrs. Lyla Hall, Mrs. Julia Barrett, Miss Hazel Yeamon, Miss Methyl Coy, Mrs. Will Yeamon, Mrs. Florence Reiman.

Hall committee, J. V. Hunting, J. P. Pratt, Mrs. Elizabeth Hannaford; fancy work, Mrs. Everett Staples; Mrs. J. P. Hall; grounds, P. G. Barrett, Adna Herrick.

Horse pulling, A. B. Grover; poultry, Milton Lake, Frank Bowker, Mrs. H. O. Coy; cattle, C. K. Denning, H. O. Coy, Cleveland Poland.

Other ladies assisting at the dinner were Mrs. Fred Hall, Mrs. Alice Tyler, Mrs. Lucy Walker, Mrs. Sana Poland.

The judges were Fred Staples, Everett Staples, Albert Farrell, A. B. Grover. At night a dance was held at the hall with a good attendance.

KEZAR FALLS

Ladies' Circle at Fair View Farm—Merchandise at Shelburne, N. H.—Former Residents Visit Here, L. M. R. Programs Completed—Smokestack Replaced—Building Improved.

The Editor's pen picture of Hospital Life in last week's Advertiser, written in his terse and vivid style, places his readers in fellowship with him, so that with thankful hearts they can "Hail the Chief" and the Hospital Staff with delighted acclamation.

The Ladies' Circle of the M. E. Church held an all day session Sept. 18th, at Fair View Farm, the home of Jora L. Quint, which looked lovely in its autumn setting. Twenty members were present who enjoyed their privileges to the utmost.

Chowder, baked beans, brown bread and pickles were served by the host. The ladies contributed the pastry. For many years the annual of the Circle commemorates the event at Fair View Farm being sacred to the memory of Mrs. J. L. Quint, who was a valued member of the Circle.

Allen F. Garner is attending the Lowell Textile School.

Mr. and Mrs. W. O. Merrifield and Mr. and Mrs. Harry Merrifield are spending a few days in Shelburne, N. H.

Mr. and Mrs. Joseph Crouther and Miss Mary Crouther moved from Chelsea and have been spending a few days with friends here. Residing here for many years until they moved to Chelsea, they left many friends who were rejoiced to see them.

The last program in the L. M. R. year book was completed Sept. 24th at the home of Mrs. Luella Lord, hostess of the evening. The ladies have enjoyed their sessions and realize that they have been benefited by the interest and research necessary to fill their programs. They start on another year confident in the belief that the L. M. R. combination can work wonders.

Emma Fox, daughter of Mr. and Mrs. Bert Fox, who has employment in Conway as a stenographer, has just completed a two weeks vacation, which was full of interest and enjoyment. In Passaic, New Jersey, she visited her brother, Theodore, and other friends, and in Springfield, Mass., her sister Vena, and brother, Robert, who are attending the Bay Path Institute, then back to the "dear old spot on earth" where father and mother awaited her coming, the piano the touch of her fingers, her adoring gaze.

Two steepleskins from somewhere, brave, intrepid men, are working at the wooden mill, removing the old worn out smoke stack and replacing it by a much needed new one. They are battle scarred, but undaunted, and realize the dangers of their vocation, but keep on in the even tenor of their way.

The building recently purchased by W. Norton, from E. K. Bacheelder, has been transformed by plate glass windows and other improvements so that the lower story will be used as a Buick sales room and the upper for offices or living rooms.

Dr. Magnus Ridlon has had an ophthalmic installed in his home.

Mrs. Magnus Ridlon is spending a week in Digby, Nova Scotia, with her parents.

Use wise crackers, not nut crackers, if you wish to crack a smile.

FIRST AID TO VACATION WATCHES

Returning vacationists should bear in mind that while to them a vacation may have been a joy forever, it is usually a period of painful surprises and casualties for a watch.

Instead of being wound up every morning and night, a watch on a vacation is apt to receive only the most flimsy encouragement. It has to endure all sorts of unaccustomed jars and knocks and bumps. It is subject to terrific heat while its owner lies prone in the sun acquiring a fashionable henna hue, or to sticky dampness when left in a bathroom. Indeed, it is lucky if it escapes one or two actual submersions in sand or salt water.

If the vacation takes the form of camping in the mountains the hazards are even greater, for it is likely to be shaken out with the blankets in the morning, dropped in the brook to the great fright of excited trout, or even get mixed up with the cooking utensils in the ashes of the campfire.

Watches with protective leather or metal cases, completely sheltering them from the rigors of vacation diversions were available this season, but it is doubtful if the majority of vacationists have taken advantage of them. Instead the same old faithful everyday watch was very likely given a fine romp, so that it is nothing short of miraculous if it returned entirely fit for its former state of calm routine. In most cases it will be found to need cleaning and oiling and probably a few repairs. The mechanism of modern watches is so perfect, as the result of great care exercised in present-day manufacture, that the ordinary watch will run serenely along keeping time for a long period without adjustment for repairs, but this does not apply to the so-called "silly season" watches drawing to an end, and does not add to the life of the watch which should periodically find its way to the jeweler for inspection.

EXTENSION WORK AT BETHEL

The Bethel community has been organized since 1921 and much Extension work is being done there. Two boys' 4-H Clubs are running this year under the leadership of John Anderson and Stephen Abbott. Mr. Anderson's Little Red Hen Club is made up mostly of poultry club members and is doing very well, while Mr. Abbott's Busy Diggers' Club is growing each year some real gardeners.

I. H. Wilson, J. C. Anderson and Stephen E. Abbott have improved potato seed plots which the county agent is regarding to take up all disease which can be found.

Farm Accounts are being carried by E. C. Smith, E. J. Stearns, and J. C. Anderson. A Farm Management meeting was held last winter with Donald Reed, Extension Management Demonstrator, present. Twenty-three attended this meeting besides the county agent.

Fred Clark was to have a forest tree planting demonstration this spring, but due to the delayed snow storms which arrived, the trees had to be planted without calling a meeting.

An interesting piece of work, which is just being started is the pine thinning demonstrations which have been started on the farms of E. J. Stearns and Archie Heath. An area of pine has been laid out and one-half of it thinned in order to show the increased growth which will result from the removal of the overthinned in a course of several years.

In addition to this, there is much interest in the better bulb campaign, and an attempt is being made to eradicate all scrub bulbs from Bethel Community. The committee in charge is I. H. Wilson, E. J. Stearns, J. C. Anderson and S. E. Abbott.

All men want homemade bread, but few wives will go to the trouble of baking it. A miller said recently that if bakers bread sales at fifteen cents a loaf, it may be baked at home at a cost of five cents a loaf.
